

Aqore Staffing Software Partners with Ringover to Redefine AI-Driven Communication in Staffing

IRVING, TX, UNITED STATES, September 24, 2024 /EINPresswire.com/ -- [Aqore Staffing Software](#), a leader in cutting-edge staffing solutions, today announced an exciting partnership with Ringover, a top cloud-based staffing communications solution. This strategic collaboration brings Ringover's AI-powered communication tools directly into Aqore's all-in-one platform, enhancing the recruiting process for staffing agencies and driving the next wave of automation in the industry.

We're excited to announce a new era in staffing technology, driven by the power of AI & expanded integrations!"

Samar Basnet, Co-Founder & CSA at Aqore

Through this partnership, Aqore Staffing Software aims to simplify recruiter workflows by integrating multichannel communication features such as voice, SMS, video conferencing, and real-time AI-powered insights. These advanced tools will enable staffing firms to enhance candidate engagement, make faster decisions, and elevate recruiter performance—creating an entirely new level of

efficiency.

The integration of Ringover's tools into Aqore's platform will provide staffing firms with a robust communication solution that includes automatic call transcription, conversation analysis, and AI-driven recommendations for recruiter engagement. With these new capabilities, recruiters will be able to:

- Automatically generate call summaries and key conversation points
- Use AI to analyze candidate sentiment and conversation outcomes
- Access real-time data to enhance communication strategies
- Receive performance coaching and feedback instantly through live analytics

Projections show that firms using these AI-driven tools could see up to a 40% increase in communication efficiency and a 30% reduction in candidate placement time, leading to faster recruitment cycles and better matches.

"We're excited to team up with Aqore to offer staffing firms powerful cloud communications and ATS solution," said Renaud Charvet, CEO of Ringover. "This partnership is all about giving

recruiters the tools they need to make their day-to-day easier, without unnecessary tech complexity. We're looking forward to helping them deliver a more personalized experience for both candidates and clients."

"We're excited to announce a new era in staffing technology, driven by the power of AI and [expanded integrations](#)," added Samar Basnet, Co-Founder and CSA at Aqore. "Our partnership with Ringover is a perfect example of how technology can enhance human capabilities. We believe this integration will improve the way recruiters work, allowing them to spend more time focusing on the human side of staffing."
