

# VinoBarrel Granted USPTO Design Patent

*Patent Received for Automated Barrel-to-Glass Portable Wine Dispenser.*

ATLANTA, GA, UNITED STATES, October 10, 2024 /EINPresswire.com/ -- VinoBarrel, the first of its kind “barrel-to-glass” wine preservation and automated pouring system, is proud announce the United States Patent and Trademark Office (USPTO) has approved [United States Design Patent No. D1043219](#) relating to the VinoBarrel™ portable self-service wine dispenser.

Launched in 2022, VinoBarrel was founded by IBM alumni Seth Lytle, a graduate of Georgia Tech, and grandchild of avid winemakers, in an effort to elevate the consumer wine experience, while increasing revenue and decreasing wine spoilage for the hospitality industry., United States Design Patent No. D1043219 represents a company milestone as the first USPTO patent issued to Lytle and the VinoBarrel, LLC organization. This patent recognizes the unique design characteristics of the wine dispenser.

VinoBarrel's mission is to deliver an elevated, self-service wine experience that is easier, more affordable, and more profitable for everyone. The barrel-to-glass dispensing system provides guests with wine that is perfectly preserved, instantly aerated, and poured at the most ideal temperature. Using food and beverage industry standard commercial kegs, a fully enabled VinoBarrel can distribute a maximum fluid capacity equivalent to 52 bottles of wine. The system can dispense a glass in less than 10 seconds, supports payment POS integrations, multiple pour size and pricing options, in addition to several branding opportunities within the guest experience.

"We are pleased to have been granted this USPTO design patent, highlighting our commitment

The advertisement features a dark purple background with the VinoBarrel logo at the top left. Below the logo, the text reads "Automated Wine Pouring directly from the barrel". To the right is a photograph of the VinoBarrel unit, which is a wooden wine barrel on wheels with a copper spout and a digital display. Below the text, there is a list of five features, each preceded by a wine glass icon: "Fill glasses in less than 10 seconds", "Eliminate waste with the 2 keg system", "Collect payment with POS integrations", "Easily accommodate large crowds", and "Report on analytics in real-time".

VinoBarrel has been granted a USPTO Design Patent No. D1043219 from the United States Patent and Trademark Office for its portable self-service wine dispenser design.

as an innovative leader in the wine delivery space," said Seth Lytle, Founder of VinoBarrel. "We are grateful for our partners and customers that have allowed us to gain referenceable proof points of what is possible. We look forward to introducing VinoBarrel to additional wineries, hotels, sports venues and anywhere crowds gather."

Currently available in the Southeast, VinoBarrel is seeking additional go to market partners across the United States. To learn more about VinoBarrel, follow the [VinoBarrel LinkedIn](#) page, or visit <https://vinobarrel.com>.

#### About VinoBarrel

VinoBarrel is a first of its kind by-the-glass, self-service wine dispenser that eliminates costly wine waste and makes wine service more profitable, portable and engaging. It's eco-friendly, 2 keg system holds the equivalent of 52 bottles of wine at the perfect temperature. It is fully portable and offers user selectable pour sizes through an easy-to-use POS system. Competitively seen as both a compliment to existing wine dispensing solutions, and a disruptor, VinoBarrel has a low cost of entry and ease of deployment ideal for food and beverage operations across hospitality providers.
