

# Nonwoven Filtration Market Segments, Drivers, Restraints, And Trends For 2024-2033

*The Business Research Company's  
Nonwoven Filtration Global Market  
Report 2024 – Market Size, Trends, And  
Global Forecast 2024-2033*

LANDON, GREATER LONDON, UNITED  
KINGDOM, October 4, 2024

/EINPresswire.com/ -- The [nonwoven  
filtration market](#) has experienced

robust growth in recent years, expanding from \$7.55 billion in 2023 to \$8.05 billion in 2024 at a compound annual growth rate (CAGR) of 6.6%. The growth in the historic period can be attributed to environmental awareness, regulatory standards, industrial expansion, healthcare sector growth, water treatment facilities.

## Growth Driver Of The Nonwoven Filtration Market

The increasing transportation sector is expected to propel the growth of the nonwoven filter media market. The transportation sector refers to the industry involved in the movement of goods, people, or information from one location to another. Transportation is essential for the efficient movement of raw materials, intermediate goods, and finished nonwoven filter media products throughout the supply chain. Trucks, ships, airplanes, and other transport modes are crucial for timely deliveries to manufacturers, ensuring a continuous production flow.

Which Market Players Are Steering The Nonwoven Filtration Market Growth?

Key players in the market include Berry Plastics Inc., Ahlstrom-Munksjö Oyj, 3M Company, Cardinal Health Inc., Domtar Corporation, Molnlycke Health Care AB, Mann + Hummel Group, Bondex, Freudenberg Filtration Technologies, Sandler AG nonwoven fabrics, Alkegen, Lydall Inc., Hollingsworth & Vose Company, Johns Manville Corp., Glatfelter Corporation, Kimberly-Clark Corporation, The Woven Experience, Toray Industries Inc., Fibertex Personal Care, Suominen Corporation, Fitesa SA, Avgol Nonwovens, Asahi Kasei Corporation, Mitsui Chemicals Inc., Toyobo Co. Ltd., Kuraray Co. Ltd., FiberVisions Corporation, Pegas Nonwovens Inc., Winner Medical Co., Advanced Fabrics Co. Ltd.

What Are The Key Trends That Influence Nonwoven Filtration Market Share And Analysis?

Major companies operating in nonwoven filter media are focused on product innovation to strengthen their market position. The filter media range is designed to provide longer filter lifetime and lower environmental impact, offering improved air quality and protection for people and equipment in closed environments. Innovations in materials and manufacturing processes lead to nonwoven filter media with enhanced filtration efficiency. This includes the development of finer fibers, nanofiber technology, and improved surface treatments to capture smaller particles.

How Is The Global Nonwoven Filtration Market Segmented?

- 1) By Type: Dry Laid Nonwoven, Meltblown Nonwoven, Wet Laid Nonwoven
- 2) By Layer: Single, Multi-Layer
- 3) By Technology: Spunbond, Meltblow, Wetlaid, Airlaid, Thermobond, Needlepunch, Spunlace, Other Technologies
- 4) By End Use Industry: Transportation, Water Filtration, Food And Beverage, HVAC, Manufacturing, Medical And Healthcare, Other End Use Industries

Geographical Insights: Asia-Pacific Leading The Nonwoven Filtration Market

Asia-Pacific was the largest region in the market in 2023. The regions covered in the report are Asia-Pacific, Western Europe, Eastern Europe, North America, South America, Middle East, Africa.

Nonwoven Filtration Market Definition

The nonwoven filter media refers to an engineered fabric made up of a pattern of filaments or fibers. The primary purpose of media is to protect membrane filters, liquid pre-filtration, gaseous filtration, air purification, and wet filtration. Its specific function is to filter or separate fluid components (air, gas, or liquid) or to act as a prefilter or support for other materials in the filtration and separation process.

Nonwoven Filtration Global Market Report 2024 from The Business Research Company covers the following information:

- Market size data for the forecast period: Historical and Future
- Macroeconomic factors affecting the market in the short and long run
- Analysis of the macro and micro economic factors that have affected the market in the past five years
- Market analysis by region: Asia-Pacific, China, Western Europe, Eastern Europe, North America, USA, South America, Middle East and Africa.
- Market analysis by countries: Australia, Brazil, China, France, Germany, India, Indonesia, Japan, Russia, South Korea, UK, USA.

An overview of the global nonwoven filtration market report covering trends, opportunities, strategies, and more

The Nonwoven Filtration Global Market Report 2024 by The Business Research Company is the most comprehensive report that provides insights on [nonwoven filtration market size](#), nonwoven filtration market drivers and trends, nonwoven filtration market major players and nonwoven filtration market growth across geographies. This report helps you gain in-depth insights into opportunities and strategies. Companies can leverage the data in the report and tap into segments with the highest growth potential.

What Does The Business Research Company Do?

The Business Research Company publishes over 15,000 reports across 27 industries and 60+ geographies. Our research is powered by 1,500,000 datasets, extensive secondary research, and exclusive insights from interviews with industry leaders. We provide continuous and custom research services, offering a range of specialized packages tailored to your needs, including Market Entry Research Package, Competitor Tracking Package, Supplier & Distributor Package, and much more.

Our flagship product, the Global Market Model, is a premier market intelligence platform

delivering comprehensive and updated forecasts to support informed decision-making.
