

# Ttmm is Everything by Albert Salamon Wins Bronze in A' Interface Awards

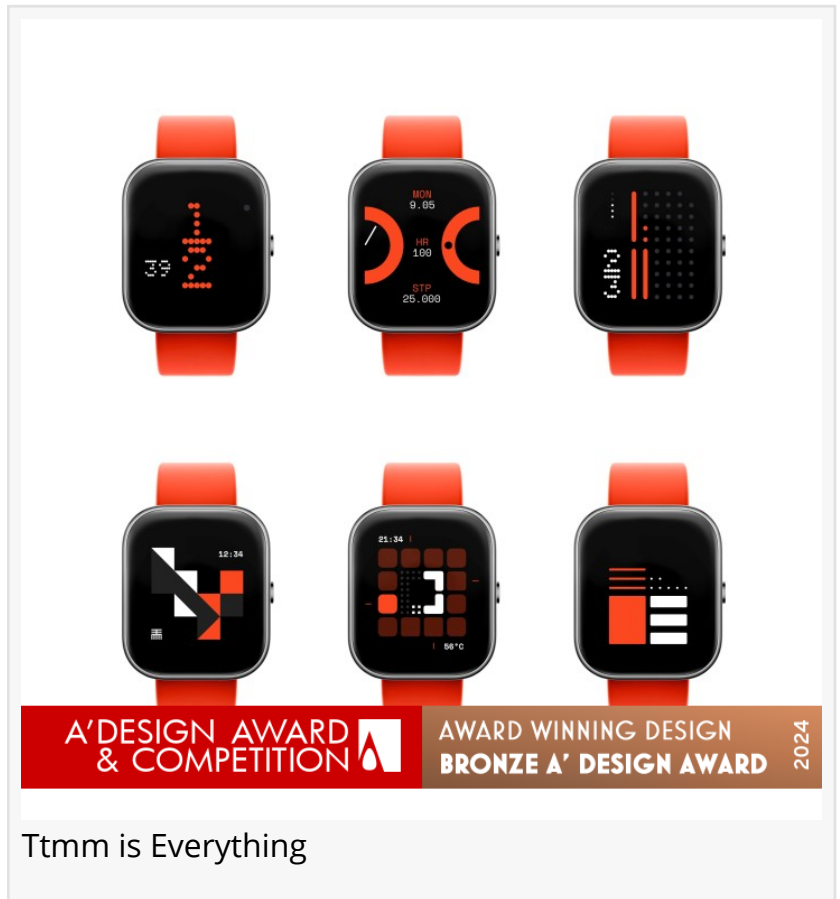

*Innovative Watch Face Collection  
Recognized for Excellence in Interface  
Design by Prestigious International Jury*

COMO, CO, ITALY, October 9, 2024 /EINPresswire.com/ -- The A' Design Award, a highly respected and well-recognized award in the field of [interface](#) design, has announced Ttmm is Everything by [Albert Salamon](#) as the Bronze Winner in the Interface, Interaction and User Experience Design category. This prestigious recognition highlights the exceptional creativity and innovation demonstrated in the design of this unique watch face collection for the Watch PRO from CMF by Nothing.

Ttmm is Everything stands out in the interface design industry for its minimalistic approach and focus on simplicity. By eliminating unnecessary elements, the collection enhances information legibility while staying true to the essence of TTMM products. The design aligns with current trends in the industry, offering both functional and eccentric options that cater to diverse user preferences and needs.

The award-winning collection showcases a range of innovative features that set it apart from competitors. Each watch face presents time in abstract and original ways, challenging users to decode and understand the unique representations. The designs adhere to CMF's visual guidelines, incorporating reduced color palettes and a distinctive style based on rounded corners and dot-based fonts. Despite the minimalistic approach, the watch faces remain highly legible and user-friendly once the underlying principles are grasped.

The Bronze A' Interface Award for Ttmm is Everything serves as a motivating force for Albert

Salamon and the TTMM team to continue pushing boundaries in interface design. This recognition may inspire future projects that further explore minimalism, abstract representations, and innovative ways of presenting information. By setting new standards in the industry, Ttmm is Everything has the potential to influence the direction of watch face design and encourage other designers to think outside the box.

#### About Albert Salamon

Albert Salamon is an acclaimed graphic designer who graduated from The Academy of Fine Arts in Warsaw, where he later lectured on visual communication for eight years. With a diverse portfolio spanning logos, visual identity systems, city information systems, books, posters, packaging, websites, mobile apps, and clock faces, Albert's work has garnered numerous accolades, including the A Design Award. As the founder and chief designer at TTMM, Albert is responsible for creating innovative products, apps, and utilities.

#### About TTMM sp. z o.o.

TTMM is a team of designers and programmers dedicated to experimenting and creating minimalistic forms of digital time. They develop apps for smartwatches like Pebble and Fitbit, with a mission to present time in new and innovative ways. TTMM's apps have won multiple awards.

#### About Bronze A' Design Award

The Bronze A' Design Award recognizes designs that demonstrate a high level of creativity and practicality. It acknowledges the skill and dedication of designers who create work that stands out for its thoughtful development and innovative use of materials and technology. Winning designs are recognized for their professional execution and potential to positively influence industry standards. The Bronze A' Design Award is a prestigious recognition granted to designs that showcase creativity, ingenuity, and astuteness, as determined by a rigorous evaluation process based on criteria such as user experience optimization, visual hierarchy implementation, innovative functionality, accessibility considerations, responsiveness across devices, and more.

#### About A' Design Award

The A' Interface, Interaction and User Experience Design Award is a highly regarded competition that attracts a diverse range of participants, including talented designers, innovative agencies, forward-thinking companies, and influential brands in the interface design and user experience industries. Established in 2008, the A' Design Award is now in its 16th year and continues to recognize and promote superior products and projects that advance and benefit society. Entries are blind peer-reviewed and evaluated based on pre-established criteria by an expert jury panel of design professionals, industry leaders, journalists, and academics. By participating in this international award, entrants have the opportunity to showcase their creativity, gain global exposure, and be recognized for their exceptional design capabilities. Winning an A' Design

Award provides enhanced status and recognition within the competitive industry. Interested parties may learn more about the A' [Design Awards](#), explore jury members, view past laureates, and participate with their projects at <https://interfaceaward.com>
