

Interstate Advanced Materials Introduces Machining and Fabrication Solutions to Help Businesses Scale

Interstate Advanced Materials offers expanded machining & fabrication services that enable businesses to scale efficiently & adapt to dynamic market demands.

SACRAMENTO, CA, UNITED STATES,
November 11, 2024 /

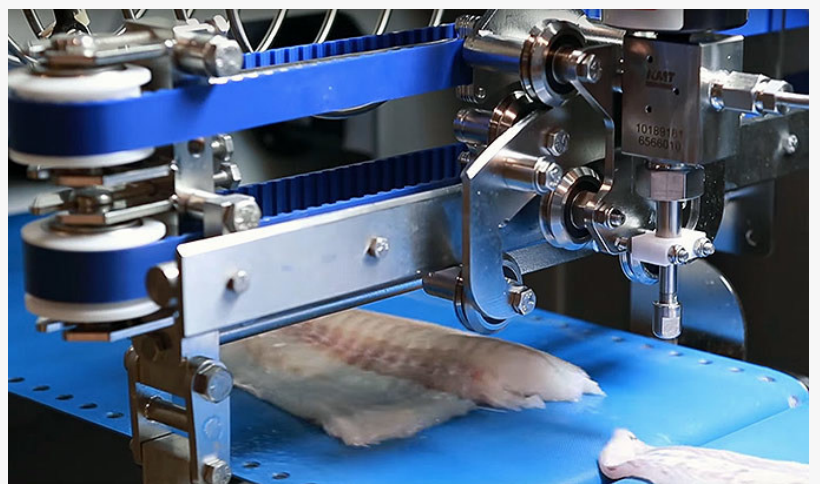

EINPresswire.com/ -- Businesses that rely on in-house machining capabilities face scalability issues and rising operational costs as they invest in advanced machinery and skilled labor to stay competitive.

Interstate Advanced Materials tackles these challenges head-on with [newly expanded machining and fabrication services](#), enabling businesses to scale efficiently and adapt to dynamic market demands.

Interstate Advanced Materials machines replacement components for equipment, Poly Hi Solidur parts, and prototypes for small production runs or large-scale manufacturing to aid businesses in completing projects of all sizes.

Utilizing state-of-the-art CNC routing, milling, and 5-axis machinery, Interstate Advanced Materials' expert machinists can make more precise cuts than ever, meeting even the most demanding project specifications.

With the capability to handle everything from one-off prototypes to large production runs, Interstate Advanced Materials also offers quality fabricated material solutions that meet or exceed the needs of the strictest job requirements. Interstate Advanced Materials' comprehensive fabrication solutions include cutting, forming, and assembling, delivering precision and consistent quality for replacement parts, structural components, and custom products like welded plastic tanks. Their machinists have the expertise to flame polish or solvent bond custom parts to improve aesthetic quality and increase a part's durability.

Interstate Advanced Materials utilizes state-of-the-art CNC routing, milling, and 5-axis machinery to create OEM replacement parts, Poly Hi Solidur parts, prototypes, and more.

By handling production needs externally, Interstate enables its partners to concentrate on core areas like product development, customer service, and market expansion. With these enhanced services, businesses can reduce the time, resources, and costs tied to in-house production, allowing them to scale more effectively and respond swiftly to evolving market demands.

Interstate Advanced Materials provides speedy custom quotes for plastic tanks, cabinets, wet benches, safety guards, dessicator boxes, and more. Businesses seeking materials for fabrication can [reduce their material costs](#)

[and save 30%+ on all materials](#) with an Interstate Advanced Materials membership.

To learn more about how Interstate Advanced Materials can be a partner to your business through their machining and fabrication services, call a material expert at 800-742-3444.

Interstate Advanced Materials is a full-line distributor of high-performance sheet, rod, tube, plate, and bar, and proudly serves many diverse industries, including OEM, semiconductor, food processing, POP display, government, agriculture, automotive, and many others. With 10 locations nationwide and an online sales and support team, Interstate Advanced Materials provides full sheets and pallets, cut-to-size service, complex CNC, welding solutions, and full machining capabilities.

Interstate Advanced Materials is known for selling high-quality products, providing excellent customer service, and providing superior technical support. Excellence in all facets of the customer experience has been the cornerstone of Interstate Advanced Materials for over 40 years.
