Stress continues to be a major concern in the workplace and daily life, affecting productivity, health, and mental well-being. Studies show that stress is a leading cause of burnout, reduced efficiency, and increased absenteeism. It can also lead to physical health problems, including headaches, tension, and fatigue, while also negatively impacting relationships.

“Stress doesn't just affect individuals; it has a widespread impact on workplaces and communities,” says Sarfaraz Khan, Founder of Fidget Armour. “Our stress relief hoodie is designed to tackle these issues head-on. By incorporating stress-relief tools into a comfortable,
