What Are The Major Factors Driving The Growth Of The Nitrogen Fertilizer Market?

Globally, government investments are enhancing the agricultural sector, driving demand for fertilizers. For instance, the Indian government announced that urea factories older than 30

years, still in production, would receive an additional fixed cost of \$6.77 (Rs 500), while 30 urea factories will get fixed costs at a rate of \$4.74 (Rs 350) per metric ton. India imports over 5 million tons of urea annually, worth over a billion dollars, and these initiatives aim to boost domestic production and reduce imports. Such actions across countries are expected to strengthen the agricultural sector, thereby supporting growth in the fertilizer market.
