

# U.S. Products Debuts Advanced 500 PSI Lightweight Extractor - Ideal for Jan-San Cleaning of Hard-to-Reach Locations

*Versatile New Cobra Max 500 Extractor Combines Adjustable 500 PSI, Large 10-Gallon Tank And Value-Pricing Into A Powerful, Durable Pro Cleaning System.*

VANCOUVER, WA, UNITED STATES,  
November 15, 2024 /

EINPresswire.com/ -- U.S. Products, the leader in commercial Jan-San cleaning extractors, today launched the Cobra Max 500, a lightweight, portable Extractor that's designed to provide commercial cleaning crews with high-power floor cleaning capability in hard-to-reach places such as stairways, small rooms and offices.

The U.S. Products Cobra Max 500 will be publicly introduced next week at the annual ISSA Show, Booth 4078, in Las Vegas.

The new Cobra Max 500 has a dual three-stage 500 psi vacuum with 180 inches of lift, 107 CFM, and a 1750-Watt Heater, and a large 10 Gallon capacity tank. All in a go-anywhere, lightweight package. The high lift and 500 psi reduce commercial carpet cleaning drying time, and the large tank gives users the ability to have continuous operation – which combine to allow users to clean and finish more square footage per day.

“Professional floor cleaning crews asked us to create a powerful, portable, high-capacity Extractor that they could easily use in tight spaces, stairways, and smaller residence facilities and office buildings,” said Jon Smalley, U.S. Products CEO. “The new Cobra Max 500 is a super-powerful Extractor system that's built to help them handle all floor cleaning challenges, faster,

The innovative new Cobra Max 500 is a lightweight, portable Extractor that's designed to provide commercial cleaning crews with high-power floor cleaning capability in hard-to-reach places such as stairways, small rooms and offices.

easier and with more efficiency,”

### Jan-San Operations Require High-Power Professional Extractors

Professional cleaning operations must be able to reach, clean and restore all surface types in all areas, including small rooms, confined areas, and stairwells. Varying carpets and floors require different pressure to clean – but not damage -- these surfaces. An adjustable 500 psi multi-surface extraction system uses water pressure to clean surfaces, similar to a pressure washer. Adjustable psi multi-surface extraction systems allow users to scale cleaning to the exact amount of pressure needed to deep-clean all surface areas in a facility, such as: furniture, upholstery, carpet, tile and grout, cement, showers, and restroom floors.

The Cobra Max 500 is a compact, portable, efficient extraction system that is designed to provide continuous operation so that cleaning crews can clean and restore hard-to-reach surfaces carpet and upholstery.

The best portable, efficient extraction systems, such as the Cobra Max 500, are designed to be compact, and provide continuous operation so that cleaning crews can touch-free clean and restore surfaces from carpet and upholstery, to hard surfaces,

“

Professional floor cleaning crews asked us to create the Cobra Max 500 - a powerful, portable, high-capacity Extractor that's easily used in tight spaces, stairways, and smaller buildings.”

*Jon Smalley, U.S. Products  
CEO*

“Floorcare operations demanded high power in a compact extractor. The value-priced Cobra Max does the job fast and easy – which helps these professionals be more productive, and earn more revenue,” added Smalley

#### Cobra Max 500 Extractor Availability

The new U.S. Products Cobra Max 500 is available now via the U.S. Products Website or through authorized worldwide U.S. Products Dealers and Representatives. For

more information, contact U.S. Products at +1-360-450-2712 or email: [uspsales@usproducts.com](mailto:uspsales@usproducts.com).

#### About U.S. Products

U.S. Products Extractors are used by thousands of commercial cleaning departments to increase

compliance, cleanliness and faster operation in facilities including: hospitality, medical, education, multi-dwelling, restaurants, office buildings, care facilities, government and food production.

Jan-San commercial cleaning crews, rental operations, dealers, and 3rd party commercial cleaning supplies companies rely on U.S. Products Extractors. The Cobra, Neptune, Pegasus and Kraken Pro Extractors combine advanced features, powerful lift, fast drying time and easy operation that improve a facility's sanitation, prolong carpet life, and reduce job time.

U.S. Products extractors are designed and built in the USA. The company built its reliable, powerful systems over 30+ years of technology development and customer service. U.S. Products backs its market-leading solutions with a 10-year limited housing warranty, the longest of any commercial extractors. For more information or to find a local U.S. Products Dealer, contact the company at: <https://usproducts.com/>, or Phone: +1-360-450-2694
