On the performance side, students, athletes and executives come to Gym for the Brain for help with focus, energy, concentration, strength, and stamina.

BICBe LLC, with A Better World Starts With Me and Gym for the Brain, complements the Edenark Group work by providing the people-side of the environment + wellness program package.

“If we want to continue living on this planet, we need to be smarter. We need to do the things that will improve our own health, happiness and performance. Then, each of us, and the businesses we run and work for, can turn that positive energy outwards and help all that are around us – the people and the planet we live on. As we explain in ‘The 8 Essential Components of an Effective Environmental Sustainability Program’

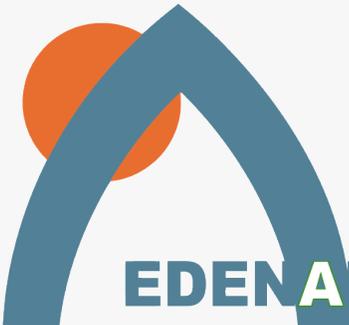

( <https://edenark.com/the-8-essential-components-of-an-effective-environmental-sustainability-program/>

), you cannot have a complete environmental program if it does not include a 'people-piece' that helps individuals become happier, healthier and more productive. Gym for the Brain and A Better World Starts With Me are critical components of a complete environmental + wellness program. There is synergy between these two operations and the Edenark Group ISO 14001 sustainability certification program and they are now all part of the Edenark Group family of companies,” said David Goodman, president and CEO of Edenark Group and also of BICBe LLC.
