“

It's exciting to be chosen to design a collection of holes for TGL. The opportunity to create thought-provoking and unique golf holes for this innovative league is truly an honor”

of Pizá Golf*

TGL presented by SoFi features six teams of top PGA TOUR players competing in a season-long, fast-paced competition that brings golf to prime time on Mondays and Tuesdays. Using a mix of technology throughout SoFi Center’s field of play, teams will face off in two-hour matches across 15 custom-designed holes in a hybrid of virtual and real-life action. Creating an electrifying “greenside” fan experience, SoFi Center wraps 1,500 fans around TGL’s field of play, which is about the size of a football field at nearly 100-yards long and 50-yards wide. TGL’s technology mix allows for every shot to be broadcast

live; a shot clock – forcing teams to hit within 40-seconds; unprecedented audio access with all players mic’d; advanced shot data; a production plan featuring robotic and embedded cameras throughout the field of play; and a high-tech, in-venue lighting and video presentation.

Each match, the course will be comprised of 15 of TGL’s custom-designed holes by renowned golf

course designers. The holes are inspired by authentic golf landscapes such as links, canyons, coastal, deserts, and tropical settings and created to uniquely challenge TGL's teams of world-class golfers. As holes are announced, images, flyovers, and descriptions will be available on the TGL Media Hub.

Augie Pizá, acclaimed internationally and the recipient of numerous awards, has established a distinguished reputation for "Re-defining Golf Facilities" through his innovative design concepts such as Wellness Golf®, Multi-purpose Golf, and Butterfly Golf. His creative prowess has been acknowledged by Forbes Magazine, which has twice named him among the top one hundred inventive minds from Mexico.

"It's exciting to be chosen to design a collection of holes for TGL. The opportunity to create thought-provoking and unique golf holes for this innovative league is truly an honor," commented Pizá. "Starting with a blank canvas presented an exhilarating challenge, free from the constraints of surrounding landscapes or natural elements, which allowed pure creativity to drive the design process."
