Drivers, Restraints, and Opportunities

The increasing demand for sustainable and eco-friendly textile goods, increasing consumer awareness about the product benefits, and quickly expanding alpaca fiber fashion outlets that allow simple access to the products drive the alpaca fiber market. However, the high cost of production of alpaca fibers hinders the global market growth. On the other hand, versatility of alpaca fibers and the increase in R&D to improve the quality and consistency of alpaca fibers will present new growth opportunities for the global alpaca fiber market in the coming years.

The textile segment to dominate the market during the forecast period

Based on application, the textile segment contributed to the largest share of more than half of the global alpaca fiber market in 2021 and is expected to dominate the market during the forecast period. The same segment is expected to witness the fastest CAGR of 3.7% from 2022 to 2031. The textile sub-segment accounted for a dominant market share in 2021 and is projected to have a dominant market share during the forecast period. The textile sector is one of the most important segments of the alpaca fiber market, since alpaca fiber is used to make a variety of high-quality fabrics.

The huacaya fiber segment to maintain its leadership during the forecast period

Based on type, the huacaya fiber segment grabbed the highest share of more than 90% of the overall alpaca fiber market in 2021 and is projected to maintain its dominance in 2031. Moreover, the same segment is expected to witness the fastest CAGR of 3.6% from 2022 to 2031. Huacaya fiber is a type of fiber derived from the Huacaya alpaca breed, which is endemic to South America. This fiber is widely recognized for its softness, warmth, and insulating characteristics, which make it a popular choice for textiles and garments.

The superfine segment to maintain its leadership during the forecast period

Based on grade, the superfine segment grabbed the highest share of nearly one-third of the overall alpaca fiber market in 2021 and is projected to maintain its dominance in 2031. Moreover, the same segment is expected to witness the fastest CAGR of 3.7% from 2022 to 2031. Superfine grade alpaca fiber is used in the creation of high-end household textiles such as blankets and throws.

LAMEA to dominate the market by 2031

Based on region, the market in LAMEA was the largest in 2021, accounting for more than two-thirds of the global alpaca fiber market and is likely to dominate in terms of revenue in 2031. The same market in is likely to show the fastest CAGR of 3.9% during the forecast period. The LAMEA region is home to many alpaca farms, particularly in countries, such as Peru, Bolivia, and Chile, which are major producers of alpaca fiber.

Leading Market Players

Nutrien Ltd.

AHA Bolivia

THE ALPACA YARN COMPANY

The Natural Fibre Company

Zeilinger Wool Co.

Altifibers S.A.
Alpaca Owners Association, Inc.
Plymouth Yarn Company, Inc.
