

# Bispecific Antibody Market and Competitive Landscape Report 2024 (Updated)

## *Bispecific Antibody Market*

DELHI, DELHI, INDIA, December 2, 2024 /EINPresswire.com/ -- DelveInsight's, "Bispecific Antibody Competitive landscape 2024" report provides comprehensive insights about 180+ companies and 250+ drugs in Bispecific antibody Competitive landscape. It covers the therapeutics assessment by product type, stage, route of administration, and molecule type. It further highlights the inactive pipeline products in this space.

Bispecific Antibody Market

## Key Takeaways from the Bispecific Antibody Competitive Landscape Report

- DelveInsight's Bispecific Antibody report depicts a robust space with 180+ active players working to develop 250+ pipeline therapies for Bispecific Antibody treatment.
- The leading companies working in the Bispecific Antibody Competitive landscape include Janssen, Amgen, Akeso, Zymeworks, Roche, IGM Biosciences, MacroGenics, Provention Bio, Jiangsu Alphamab Biopharmaceuticals, Sichuan Baili Pharmaceutical, Regeneron Pharmaceuticals, Boehringer Ingelheim, and others.
- Promising Bispecific Antibody Therapies in the various stages of development include SI-B003, AK104, Bevacizumab, Paclitaxel, AK112, LY3434172, CDX-527, Etoposide, Carboplatin, and others.

Request a sample and discover the recent advances in Bispecific Antibody Drugs @ [Bispecifics Market Size Report](#)

The Bispecific Antibody competitive landscape report provides an in-depth commercial assessment of drugs that have been included, which comprises collaboration, agreement, licensing, and acquisition - deal values trends. The sub-segmentation is described in the Bispecific Antibody report which provides company-company collaboration (licensing/partnering), company academic collaboration, and acquisition analysis in tabulated

form.

### Bispecific Antibody Overview

Immunoglobulins (antibodies [Abs]) are major protein components of the adaptive immune system, directed against foreign compounds and infectious agents. The IgG molecule consists of two light and two heavy chains connected by disulfide bonds; IgG is a monomer with a molecular weight of 146-160 kDa. Antigen-binding centers of Abs are formed by hypervariable regions of heavy and light chains. In the classical point of view, the Ab molecule contains two identical antigen-binding sites (two HL fragments) and is monospecific and bivalent.

Find out more about Bispecific Antibody Analytical Perspective: In-depth Commercial Assessment @ [Bispecific Antibody Collaboration Analysis by Companies](#)

### Bispecific Antibody Companies and Product Profile

- Akeso: Ivonescimab
- Zymeworks: Zanidatamab
- Roche: Glofitamab
- IGM Biosciences: Imvotamab
- MacroGenics: MGD024

### Bispecific Antibody Competitive Landscape

The Bispecific Antibody competitive landscape report comprises of comparative assessment of Companies (by therapy, development stage, and technology).

### Bispecific Antibody Report Assessment

- Bispecific Antibody Company Analysis
- Bispecific Antibody Therapeutic Assessment
- Bispecific Antibody Pipeline Assessment
- Inactive drugs assessment
- Bispecific Antibody Unmet Needs

Learn more about the emerging Bispecific Antibody Competitive Landscape @ [Bispecific Antibody Market Drivers and Barriers, Unmet Needs](#)

### Scope of the Bispecific Antibody Report

- Coverage- Global
- Bispecific Antibody Therapeutics Assessment: Product Type, Stage and Product Type, Route of Administration, Molecule Type
- Bispecific Antibody Companies- Janssen, Amgen, Akeso, Zymeworks, Roche, IGM Biosciences, MacroGenics, Provention Bio, Jiangsu Alphamab Biopharmaceuticals, Sichuan Baili Pharmaceutical, Regeneron Pharmaceuticals, Boehringer Ingelheim, and others.
- Bispecific Antibody Therapies- SI-B003, AK104, Bevacizumab, Paclitaxel, AK112, LY3434172, CDX-527, Etoposide, Carboplatin, and others.

## Table of Content

1. Introduction
2. Executive Summary
3. Bispecific antibody: Overview
4. Bispecific Antibody -Analytical Perspective: In-depth Commercial Assessment
5. Competitive Landscape
6. Therapeutic Assessment
7. Bispecific antibody: Company and Product Profiles (Marketed Therapies)
8. Janssen
9. Amivantamab
10. Bispecific antibody: Company and Product Profiles (Pipeline Therapies)
11. Late Stage Products (Phase III)
12. Akeso
13. Ivonescimab
14. Drug profiles in the detailed report.....
15. Mid Stage Products (Phase II)
16. IGM Biosciences
17. Invotamab
18. Drug profiles in the detailed report.....
19. Early Stage Products (Phase I)
20. MacroGenics
21. MGD024
22. Drug profiles in the detailed report.....
23. Preclinical and Discovery Stage Products
24. Company Name
25. Product Name
26. Drug profiles in the detailed report.....
27. Inactive Products
28. Bispecific antibody- Unmet needs
29. Bispecific antibody - Market drivers and barriers
30. Appendix

## About Us

DelveInsight is a leading healthcare-focused market research and consulting firm that provides clients with high-quality market intelligence and analysis to support informed business decisions. With a team of experienced industry experts and a deep understanding of the life sciences and healthcare sectors, we offer customized research solutions and insights to clients across the globe. Connect with us to get high-quality, accurate, and real-time intelligence to stay ahead of the growth curve.
