

Nano Gold in India Market Trend | Explore the Future Growth Opportunities by 2027

The India nano gold market size is projected to reach \$499.7 million by 2027, growing at a CAGR of 17.0% from 2020 to 2027

WILMINGTON, DE, UNITED STATES, December 4, 2024 /EINPresswire.com/

-- The [India nano gold market](#) was estimated at \$201.4 million in 2019 and is expected to hit \$499.7 million by 2027, registering a CAGR of 17.0% from 2020 to 2027. Increase in demand for nano gold from the electronics and healthcare industries and advantages associated with gold nanoparticles drive the growth of the India nano gold market. On the other hand, government regulations toward environmental pollution impede the growth to some extent. However, rise in awareness & trend toward biological synthesis method along with R&D toward the use of nano gold in healthcare and electronics applications is expected to create lucrative opportunities in the industry.

According to the report published by Allied Market Research, the India Nano Gold Market by Type (Water Soluble, Oil Soluble, and Others), Diameter Size (Less than 40 nm, 40 to 100 nm, 101 to 400 nm, and Others), Application (Imaging, Targeted Drug Delivery, Sensors, In Vitro Diagnostics, Probes, Catalysis, and Others), and End User (Electronics, Healthcare, Chemicals, and Others): Opportunity Analysis and Industry Forecast, 2020-2027. The report provides a detailed analysis of the top investment pockets, top winning strategies, drivers & opportunities, market size & estimations, competitive landscape, and evolving market trends.

The key market players analyzed in the India nano gold market report include Nanocomposix, Blacktrace Holdings Ltd, Indian Platinum Private Limited, Aritech Chemazone Pvt Ltd, Merck KGaA, Mincometsal, Nano Labs, Nanoshel LLC, Techinstro, and Thermo Fisher Scientific.

Key Findings Of The Study

In 2019, the water-soluble segment accounted for around 43.2% of the share in India nano gold market, and is expected to maintain its dominance till the end of the forecast period.

In 2019, the less than 40 nm segment is accounted for 54.2% market share in 2019, and is anticipated to grow at a rate of 18.1% in terms of revenue, increasing its share in India nano gold market.

In vitro diagnostics is the fastest-growing application segment in India nano gold market, expected to grow at a CAGR of 19.5% during 2020–2027.

In 2019, the healthcare segment dominated India nano gold market with more than 48.3% of the share, in terms of revenue.

The India nano gold industry is analyzed across type, diameter size, application, and end user. Based on type, the water soluble segment contributed to more than two-fifths of the total market share in 2019, and is anticipated to lead the trail by the end of 2027. The oil soluble segment, on the other hand, would register the fastest CAGR of 17.3% during the forecast period.

Based on diameter size, the less than 40 nm segment accounted for more than half of the total market revenue in 2019, and is expected to dominate by 2027. The same segment would also cite the fastest CAGR of 18.1% throughout the forecast period.

Based on application, the in vitro diagnostics segment held more than one-fifth of the total market share in 2019, and is projected to maintain the lion's share by 2027. The same segment would also exhibit the fastest CAGR of 19.5% from 2020 to 2027.

About Us

Allied Market Research (AMR) is a full-service market research and business-consulting wing of Allied Analytics LLP based in Portland, Oregon. Allied Market Research provides global enterprises as well as medium and small businesses with unmatched quality of "Market Research Reports" and "Business Intelligence Solutions." AMR has a targeted view to provide business insights and consulting to assist its clients to make strategic business decisions and achieve sustainable growth in their respective market domain.

We are in professional corporate relations with various companies and this helps us in digging out market data that helps us generate accurate research data tables and confirms utmost accuracy in our market forecasting. Allied Market Research CEO Pawan Kumar is instrumental in inspiring and encouraging everyone associated with the company to maintain high quality of data and help clients in every way possible to achieve success. Each and every data presented in the reports published by us is extracted through primary interviews with top officials from leading companies of domain concerned. Our secondary data procurement methodology includes deep online and offline research and discussion with knowledgeable professionals and analysts in the industry.
