

Cority and 3E Partnership Wins Environmental Protection New Product of the Year

Cority's Enhanced Chemical Management Wins Two Top Industry Awards

TORONTO, ONTARIO, CANADA,
December 5, 2024 /EINPresswire.com/

-- [Cority](#), a leading provider of enterprise Environmental, Health, and Safety (EHS) software, is proud to

announce that its [Enhanced Chemical](#)

[Management solution, powered by 3E data](#), has been honored with two Environmental Protection Online awards in both Environmental Management and Compliance and Regulations.

Cority's award-winning solution leverages [3E](#)'s extensive, world-class chemical content library to provide organizations with comprehensive and up-to-date information related to chemical products used in their workplaces, advancing worker safety and environmental stewardship. The integrated solution helps businesses streamline their chemical management processes, ensure regulatory compliance, and inform access to information to support thoughtful, data-driven decision-making.

"Hazard communication is among the most frequently cited issues on U.S. OSHA's annual Top Ten Citations List. Better access to chemical content not only helps businesses ensure compliance to relevant standards, but it also provides point-in-time information to help workers make the most informed decisions to ensure their continued safety and well-being," said William Palmer, product marketing manager at Cority. "Our Enhanced Chemical Management solution is designed to simplify the management of complex chemical data, helping organizations lessen their compliance challenges and improve the decisions made when importing, manufacturing, storing, or disposing of hazardous substances. This award acknowledges the commitment that we've made to help our customers protect their people and their communities."

Cority's solution provides an integrated approach to chemical management, offering tools for:

-Centralized Access: Users gain centralized access to a global chemical regulatory compliance library of more than 20 million safety data sheets.

-Regulatory Compliance: The solution supports compliance with local, national, and global

chemical regulations, helping businesses avoid costly fines and reputational damage.

-Risk Management: The comprehensive software helps organizations to identify, manage, and reduce risks associated with hazardous chemicals.

"We partner with Cority to contribute to an innovative solution that embeds data and intelligence into the decision-making moments that matter most for companies around the world. We are proud for the CorityOne™ chemical management solution to be Powered by 3E and to celebrate this win alongside them," stated Neil Abdalla, head of global partnerships at 3E. "Our joint efforts aim to provide unparalleled access to critical chemical management tools and resources, marking a significant advancement in the industry and giving customers the access and information they need, when and where they need it."

Cority's chemical management solution, part of the integrated EHS SaaS-based platform CorityOne™, ensures seamless access to 3E's chemical data across Cority's other EHS clouds, supporting broader EHS operations and compliance management.

About Cority

Cority gives every employee from the field to the boardroom the power to make a difference, reducing risks and creating a safer, healthier, and more sustainable world. For over 35 years, Cority's people-first software solutions have been built by EHS and sustainability experts who know the pressures businesses face.
