

# LEDSAVE: Leading the Charge in Sustainable Lighting and Business Practices

*LEDSAVE, a local Yorkshire lighting store, has committed to reducing their carbon impact through solar, recycling, and electric vehicles.*

BARTON-UPON-HUMBER, UNITED KINGDOM, December 18, 2024 /EINPresswire.com/ -- As

If every household in the UK replaced their old bulbs with LEDs, it would be the equivalent of taking 675,000 cars off the road for a year.”

*David Segal, LEDSAVE*

energy prices soar and the need for sustainable solutions becomes ever more urgent, [LEDSAVE](#), a Barton-Upon-Humber-based LED lighting store, continues to pioneer energy-efficient solutions while making strides in environmental conservation.

David Segal, founder of LEDSAVE, explains: “LED lights aren’t just about saving money on your electricity bill; they’re about saving the planet too. If every household in

the UK replaced their old bulbs with LEDs, it would be the equivalent of taking 675,000 cars off the road for a year in carbon dioxide savings.”

Since opening in 2011, LEDSAVE has been on a mission to convert households and businesses from inefficient lighting that waste up to 90% of their energy as heat — bad for bills and bad for the planet. Alongside promoting LED lighting, the company has recently implemented several eco-friendly initiatives:

- Solar Panels and Batteries: Installed to power operations, staff vehicles and reduce environmental impact.
- Electric Vehicles: Transitioned their entire fleet to battery-powered electric vehicles.
- Sustainable Packaging: Switched entirely to paper-based, biodegradable packaging—no plastic used.
- Cardboard Recycling: Acquiring a cardboard shredder to reuse old packaging materials.

Sustainability has been a cornerstone of LEDSAVE since its inception. By offering high-quality, energy-efficient products and adopting greener business practices, LEDSAVE empowers customers to reduce their carbon footprints while making their homes and businesses more energy efficient.

“Switching to LEDs and adopting sustainable practices is one of the simplest and most impactful

changes anyone can make," says David. "We're proud to lead by example and help others do the same."

Located in Barton-Upon-Humber, LEDSAVE is a local hub for sustainable lighting solutions. Whether you're looking to lower energy costs or embrace greener living, LEDSAVE is ready to help.
