stores nationwide and on Boots.com, [Tolpa](#), the cult skincare brand from Poland launches in the UK.

Introducing a power line-up of ten skincare products designed to rebalance the skin’s barrier by taking a ‘less-is-more’ approach to the number of products in a skincare regime, this dermatologist-endorsed brand ensures that each product used - works to the maximum effect.

Developed by skincare scientists, Tolpa products offer those suffering from three common skin issues including acne, rosacea and dehydration, a simple regime with products packed with skin actives to deliver a significant impact. The outlook for skin is looking moisturised, clear

and calm this Christmas!

The Tolpa range comprises nature-inspired, science-powered and dermatologically proven skincare products designed to deal with challenging skin issues. Tolpa has already achieved cult status thanks to incredible consumer testimonials showcasing impressive results.

Tolpa skincare treatments are designed to address specific concerns including imperfections, acne, rosacea and dryness. Tolpa lands in the ‘sweet spot’ between the natural and the scientific – benefiting from the best that nature has to offer, with formulations that are rigorously laboratory and dermatologically tested to help improve skin. With active ingredients blended at the optimum potency to deliver tangible results without irritation and tested and trialled under dermatologist-supervised conditions, Tolpa delivers product textures formulated for comfort, with appealing fragrances, cooling effects and tone-evening benefits.

Peat is in the 'DNA' of all Tolpa skincare products. It has antibacterial and astringent properties. It contains potent antioxidants that, in conjunction with minerals, rejuvenate, regenerate, moisturise, soothe irritation and fight free radicals. It is well tolerated by sensitive skin making it more resistant to external factors. Tolpa's peat also stimulates the cell renewal processes, strengthens the skin's structure, protects it from drying and makes it less susceptible to irritation.

Agnieszka Hrycaj, Head of Product Department, Tolpa said: "Tolpa hits the perfect balance between nature and science by bringing the best from nature together with the latest in skincare science in each of its product formulations. They contain a range of active ingredients for remarkable results without causing skin irritation. Tolpa's sustainably-derived peat is our power ingredient that captures the true wonder of nature. The skin benefit results we have seen in our laboratory tests are truly astonishing."

The benefits of the Tolpa range are proven via lab and dermatological tests. Results show improvements in skin elasticity and moisture levels, wrinkle reduction, minimisation of pore size and reduced sebum production and redness. All Tolpa products are allergy tested to be safe for
