

SmartOne.ai Achieves SOC2 Type II Certification, Demonstrating Commitment to Data Security

MONTREAL, QUEBEC, CANADA,
December 13, 2024 /

EINPresswire.com/ -- Friday, December
13th, 2024 (Montreal, QC, Canada)—

[SmartOne.ai](#), a leader in Enterprise and AI data solutions and tech workforce resources, is proud to announce that it has officially achieved SOC 2 Type II certification. This milestone underscores the company's unwavering commitment to data security, ensuring clients that their sensitive information is handled with the highest level of protection and integrity.

Eric Raza, CEO of SmartOne.ai

The SOC 2 Type II certification, a rigorous independent assessment of an organization's controls related to security, availability, processing integrity, confidentiality, and privacy, confirms that SmartOne.ai's practices meet the highest standards for safeguarding data. This achievement provides clients with the confidence to fully trust SmartOne.ai with their critical data needs, setting the company up as a secure and reliable partner in an increasingly competitive market.

This certification is a testament to our dedication to protecting our clients' data and building lasting trust”

Eric Raza, CEO of SmartOne.ai

“This certification is a testament to our dedication to protecting our clients' data and building lasting trust,” said Eric Raza, CEO of SmartOne.ai. “In today’s world, where security is paramount, achieving SOC 2 Type II certification not only enhances our credibility but also strengthens our ability to attract and serve security-conscious clients.”

SmartOne.ai credits this success to the collective efforts of

its team, with a special acknowledgment to Director, IT & IS Mr. Jeritiana Ravelojaona for leading the certification project with exceptional effectiveness.

As SmartOne.ai continues its growth and expansion, this achievement marks an important step in reinforcing its position as a trusted provider of enterprise and AI data solutions.
