

L10 by Foshan Meijia Deshang Wins Iron A' Design Award in Building Materials and Construction Components Design Category

Innovative Sash Window Design Featuring Dimmable Glass, Nano-Coating, and Smart Home Integration Recognized for Excellence

COMO, CO, ITALY, December 16, 2024

[/EINPresswire.com/](https://www.einpresswire.com/) -- The A' Design Award, a highly respected and prestigious international design competition, has announced [Foshan Meijia Deshang](#) as a winner in the Building Materials and Construction Components Design category for their innovative work titled "L10." This recognition highlights the significance of the A' Design Award within the [Building Components](#) industry, positioning it as a notable accolade that celebrates exceptional design achievements.

L10

The L10 sash window design by Foshan Meijia Deshang showcases the company's commitment to advancing Building Components industry standards and practices through innovative solutions. By incorporating features such as dimmable glass, nano-coating, and self-cleaning technologies, along with smart home integration, the L10 design offers practical benefits for users, the industry, and other stakeholders, emphasizing utility and cutting-edge advancements.

What sets the L10 apart from traditional sash window designs is its unique combination of features. The multi-point locking mechanism ensures stability and security, while the transparent conductive film, PDLC material, and protective layer allow for adjustable transparency levels through electronic control. The addition of oxide nano-coating and photocatalytic self-cleaning coating provides excellent heat insulation, UV protection, and the ability to decompose

pollutants and organic matter, keeping the window surface clean and bright.

Receiving the Iron A' Design Award for the L10 sash window design serves as a motivation for Foshan Meijia Deshang to continue pursuing excellence and innovation in their future projects. This recognition may inspire the company to further explore and develop advanced solutions that align with the evolving needs and trends within the Building Components industry, fostering ongoing progress and elevating industry standards.

L10 was designed by Kuang Bangqing, a key member of the Foshan Meijia Deshang team.
