Prime determinants of growth

Rising preference for minimally invasive surgery and convenience offered by ASC, are the major factors that drive the growth of the ambulatory surgery center market. However, regulatory and accreditation challenges hinder the market growth. Moreover, growing focus on technological advancements offer remunerative opportunities for the expansion of the global ambulatory surgery center market.

Segment Highlights

Single specialty center is available

Single specialty Ambulatory Surgery Centers (ASCs) are increasingly available due to their focus on specific medical procedures, such as orthopedics or ophthalmology. This specialization allows for tailored care, optimized resources, and efficient operations, meeting the specific needs of patients and offering specialized expertise in a streamlined outpatient setting.

More number of orthopedic procedures are performed in ASC

Orthopedic operations are frequently performed in Ambulatory Surgery Centers (ASCs) due to their efficiency and lower costs compared to hospitals. ASCs specialize in outpatient procedures, offering specialized equipment and experienced staff focused on orthopedic care. Patients benefit from streamlined care and quicker recovery times in these dedicated facilities.

The hospital based ambulatory surgical center modality are in boom demand

Hospital-based ambulatory surgical centers are booming due to their integrated care, advanced facilities, and access to comprehensive medical resources. These centers offer the convenience of outpatient surgery with the safety and support of a hospital environment, attracting patients seeking efficient, high-quality surgical care with immediate access to emergency services if needed

Regional Outlook

The ambulatory surgery market is growing rapidly in the United States, driven by cost efficiency and patient convenience. Europe follows, emphasizing advanced medical technologies and regulatory support. Asia-Pacific is experiencing significant growth due to increasing healthcare investments and rising demand for outpatient surgeries in countries like China and India.

Major Key Players -

CHSPSC, LLC.

Edward-Elmhurst Health

Envision Healthcare Corporation

Healthway Medical Group

Nexus Day Surgery Centre

Pediatrix Medical Group

Prospect Medical Holdings, Inc.

SurgCenter

Surgery Partners

TH Medical

The report provides a detailed analysis of these key players in the global Ambulatory surgery center market. These players have adopted different strategies such as expansion, partnership, collaboration and others to increase their market share and maintain dominant shares in different regions. The report is valuable in highlighting business performance, operating segments, product portfolio, and strategic moves of market players to showcase the competitive scenario.

Recent Industry Development

In January 2024, Baptist Health, a faith-based, mission-driven health system in Northeast Florida, and Compass Surgical Partners, an independent, full-service ambulatory surgery center (ASC) development and management partner, announced their plans to jointly launch a network of ASCs branded as Horizon Surgery Center.

In January 2021, HST Pathways, the leader in cloud-based computing for surgical centers nationally, announced the launch of its premier membership program for ambulatory surgery centers (ASCs), "HST One." Through multiple offerings, ASCs will have the ability to select bundled popular products as part of their membership, with the flexibility to add on additional services as needed.
