Fox nuts are available in two types, organic and inorganic, both of which are gluten-free and have a low glycemic index. Inorganic fox nuts contain higher yield over organic fox nuts. They are available in different flavors such as baked, roasted, popped, and fried. However, they lose all the nutritious properties when they are fried or roasted, but most of the people demand for baked fox nuts as they are more healthy snacks in nature. The hectic lifestyle of customers surge the fox nuts market demand, as fox nuts are consumed in breakfast meal or snack meals. They are used as a supplement for a healthy balanced diet.

The utmost reason for increase in demand of fox nuts is that dieticians advise people to consume fox nuts in their evening snacks, which helps them to subside their hunger. However, excess consumption of fox nuts leads to constipation, bloating, allergies, and gastrointestinal issues. Thus, these fox nuts market trends are shaping the market dynamics.
