

Unmanned Aerial Vehicles (UAVs) Simulation Market Update 2025 : to Exhibit USD 2.5 Billion Revenue by 2031, Claims AMR

The Unmanned Aerial Vehicles (UAVs) Simulation market research is offered along with information related to key drivers, restraints, and opportunities.

The unmanned aerial vehicles (UAVs) simulation market was valued at \$0.6 billion in 2021, and is estimated to reach \$2.5 billion by 2031, growing at a CAGR of 14.6% from 2022 to 2031”

Allied Market Research

WILMINGTON, DE, UNITED STATES, December 24, 2024 /EINPresswire.com/ -- According to the report published by Allied Market Research, the global [unmanned aerial vehicles \(UAVs\) simulation market](#) generated \$0.6 billion in 2021, and is projected to reach \$2.5 billion by 2031, growing at a CAGR of 14.6% from 2022 to 2031. The report offers a detailed analysis of the top winning strategies, evolving market trends, market size and estimations, value chain, key investment pockets, drivers & opportunities, competitive landscape and regional landscape. The report is a useful source of information for new entrants, shareholders, frontrunners and shareholders in

introducing necessary strategies for the future and taking essential steps to significantly strengthen and heighten their position in the market.

UAV Simulation Market Report Coverage & Details:

Report Coverage Details

Forecast Period 2022–2031

Base Year 2021

Market Size in 2021 \$0.6 billion

Market Size in 2031 \$2.5 billion

CAGR 14.6%

No. of Pages in Report 246

Segments Covered Component, Drone Type, End-Use, And Region.

Drivers Increase in the adoption of UAVs in military and commercial applications
Less number of skilled and trained pilots
Opportunities Contracts and agreements with military forces
Persistent technological advancements in attacking capabilities
Restrains Extortionate the cost of UAV simulation systems

The report offers detailed segmentation of the global [unmanned aerial vehicles \(UAVs\) simulation](#) market based on component, drone type, end-use, and region. The report provides a comprehensive analysis of every segment and their respective sub-segment with the help of graphical and tabular representation. This analysis can essentially help market players, investors, and new entrants in determining and devising strategies based on the fastest-growing segments and highest revenue generation that is mentioned in the report.

Based on component, the hardware segment held the largest market share in 2021, holding nearly two-thirds of the global market, and is expected to maintain its leadership status during the forecast period. The software segment, on the other hand, is expected to cite the fastest CAGR of 15.9% during the forecast period.

Based on drone type, the fixed wing segment held the largest market share in 2021, holding more than three-fifths of the global market, and is expected to maintain its leadership status during the forecast period. The rotary wing segment, on the other hand, is expected to cite the fastest CAGR of 16.0% during the forecast period.

Based on end-use, the military segment held the largest market share in 2021, holding more than two-thirds of the global market, and is expected to maintain its leadership status during the forecast period. The civil and commercial segment, on the other hand, is expected to cite the fastest CAGR of 16.2% during the forecast period.

Based on region, the market across North America held the dominating market share in 2021, holding more than two-fifths of the global market, and is expected to maintain its leadership status during the forecast period. The Asia-Pacific region, on the other hand, is expected to cite the fastest CAGR of 16.0% during the forecast period.

The key player analyses in the global unmanned aerial vehicles (UAVs) simulation market report include Bluehalo

CAE Inc.

General Atomics Aeronautical Systems Inc.

Havelsan A.S.

Indra Sistemas

Israel Aerospace Industries Ltd.

Leonardo S.P.A
L3Harris Technologies Inc.
Quantum 3D
Raytheon Technologies Corporation
Simlat UAS Simulation
Singapore Technologies Electronic Limited

The report analyzes these key players in the global unmanned aerial vehicles (UAVs) simulation market. These market players have made effective use of strategies such as joint ventures, collaborations, expansion, new product launches, partnerships, and others to maximize their foothold and prowess in the industry. The report is helpful in analyzing recent developments, product portfolio, business performance, and operating segments by prominent players in the market.
