

EZ360 CEO Izzy Alpert Discusses the Future of Automotive Photography and AI

Auto Success interview covers the latest in automotive photo technologies, including AI

DALLAS, TX, UNITED STATES, January 10, 2025 /EINPresswire.com/ -- EZ360 CEO and founder Izzy Alpert spoke on automotive photography and dealership solutions in the Auto Success Executive Spotlight. In this exclusive interview, Mr. Alpert shared insights on the latest advancements that can help dealerships revolutionize their vehicle imaging processes with cutting-edge technology.

Izzy Alpert Interviews with Auto Success

Exploring the Future of Automotive Photography

“

A car's first impression is online—make it count! With EZ360, dealerships capture standout photos that grab attention, engage buyers, and drive faster sales.”

EZ360 CEO, Izzy Alpert

In the interview, Izzy Alpert delves into:

- > The Evolution of Photo Studios: How modern innovations are reshaping traditional vehicle photography setups.
- > AI's Role in Image Optimization: Using artificial intelligence to enhance and fix dealership images, ensuring the highest quality visuals for online listings.
- > Impact on Automotive Retail: The profound ways these innovations are redefining how dealerships present inventory and engage with customers online.

This interview offers invaluable insights and practical takeaways for auto professionals interested in automating photo studios, leveraging AI for image enhancement, or understanding the future of automotive retail.

Here is a list of videos showcasing each interview segment.

1. High-Quality Photos: Sharp, detailed photos attract buyers, build trust, and increase vehicle sales.
2. AI Transform Automotive Imagery: AI automates editing, replaces backgrounds, and enhances photo quality for faster, consistent results.
3. Transform Photo Studios with Automation: Automation streamlines photo production, combining tools like turntables and synchronized lighting for professional results.
4. Fixing Bad Photos with AI: AI corrects issues like poor lighting, blurry images, and inconsistent backgrounds, improving overall photo quality.
5. AI to Improve Dealership Photography: AI simplifies editing processes and optimizes inventory photography for better efficiency and scalability.
6. Turntables to Improve Dealership Photography: Turntables create seamless 360° vehicle views, making online listings more dynamic and engaging for buyers.
7. The Future of Automotive Retail: AI, automation, and interactive imaging are shaping a more efficient and customer-focused automotive retail experience.

About EZ360

EZ360 (ez360.tv) has been a leader in automotive photo technology for car and truck dealers since 2003. EZ360 provides state-of-the-art photo studios, heavy-duty turntables, and AI-software to help dealers accelerate their online merchandising.

EZ360 has affordable solutions with a focus on photo quality, consistency, and process automation. Every dealership is unique. For large auto groups, we deliver scalable, automated systems that enhance efficiency. Our photo studios are custom-built to adapt to the size of the client space and facility. Our AI software helps smaller stores compete directly with larger dealerships by providing perfect photos with the highest-quality 4K images and custom backgrounds.
