

Nature's Dome Announces Launch of Eco-Friendly Bed Bug Spray

LOS ANGELES, CA, UNITED STATES, January 7, 2025 /EINPresswire.com/ -- [Nature's Dome](#) is pleased to announce the launch of its new [Bed Bug Spray](#), a product designed to protect households without compromising on safety or sustainability. With a commitment to creating effective pest control solutions that are safe for pets, children, and the environment, Nature's Dome continues its mission to safeguard what matters most.

At its core, Nature's Dome's Bed Bug Spray is a natural and non-toxic alternative to traditional chemical-based pest control. Made from plant-derived ingredients, it is clinically proven to eliminate bed bugs, mites, and their eggs, while also preventing future infestations. The product provides long-lasting protection and is safe to use in residential spaces, hotels, motels, and short-term rentals. It effectively treats a wide range of areas, including mattresses, sofas, carpets, and vehicle interiors.

"At Nature's Dome, we believe that safety shouldn't come at the expense of effectiveness," says Eric Mayer, Founder and CEO of Nature's Dome. "With our new Bed Bug Spray, families can rest easy knowing they are protected by a product that is as safe for their children and pets as it is harsh on pests."

Nature's Dome was born from a deeply personal experience. Eric Mayer, a devoted pet lover, founded the company after his family dog, Bella, suffered a severe reaction to a conventional pesticide. This incident inspired Eric and his business partner, Sam Greene, to create safer alternatives that protect families and the environment. Harnessing the power of nature, their solutions deliver the effectiveness customers need while maintaining the safety and sustainability they value.

As such, the Bed Bug Spray embodies the company's commitment to innovation and environmental responsibility. Its unique, eco-friendly formula offers an effective solution for pest control, without the use of harsh chemicals. Currently, customers can purchase the spray on Nature's Dome's official website and on [Amazon \(https://pixelfy.me/ocxRt1\)](https://pixelfy.me/ocxRt1).
