About FPI Management:

FPI Management was founded in 1968 as a builder and operator of high-quality, Affordable apartment communities in Sacramento, CA. By 1989, the company was purchased by Dennis Treadaway and three other partners, and the complexion of the company had morphed from a developer builder to an exclusive 3rd party fee manager with no ownership interest. This has been FPI Management's business plan since that time. Headquartered in Folsom, CA, FPI Management's clients comprise institutional investors, international real estate investment firms, financial institutions, multifamily development builders, private investors, and City, County, and State agencies.
