

# Thermahood Ltd Expands Availability Through Huws Gray, the UK's Largest Independent Builders' Merchant

UNITED KINGDOM, January 16, 2025 /EINPresswire.com/ -- Thermahood Ltd, a leading UK manufacturer of downlight protection and airtightness solutions, is proud to announce that its innovative products are now available through Huws Gray, the UK's Largest Independent Builders' Merchant. This partnership ensures that builders, contractors, and property owners can easily access Thermahood's industry-leading solutions for energy efficiency and sustainable building practices. Explore the range today at [www.huwsgray.co.uk](http://www.huwsgray.co.uk).

## Revolutionising Airtightness in Building Design

As airtightness becomes a cornerstone of modern, sustainable construction, Thermahood Airtight Downlight Covers are proving indispensable. Engineered to integrate seamlessly with a variety of building materials, including

airtightness membranes, loft insulation, specialist tapes, and adhesives, these innovative covers provide a robust solution for improving building airtightness and overall energy performance. By prioritizing airtight design, builders and contractors can achieve superior thermal efficiency, moisture control, and indoor air quality in every project.

## [Key Benefits of Thermahood Airtight Downlight Covers](#)

### Energy Efficiency Through Downlight Airtightness

Thermahood Airtight Downlight Covers are specifically designed to address the energy

inefficiencies associated with recessed downlights. By creating a secure airtight barrier around downlights, these covers effectively reduce heat loss and prevent drafts, significantly improving overall building efficiency. This focused approach to airtightness minimizes energy waste, helping users achieve lower energy bills and contribute to a reduced carbon footprint.

#### Moisture Protection

In addition to their thermal benefits, Thermahood Airtight Downlight Covers act as a critical barrier against moisture. This feature helps prevent condensation and issues like mould growth, which are particularly crucial in attic and ceiling spaces.

#### Improved Wellbeing

By supporting airtight construction, Thermahood products promote healthier indoor environments. Enhanced air quality and stable indoor climates improve occupant wellbeing while maximizing building performance.

#### Driving the Carbon Reduction Agenda

The availability of Thermahood products through Huws Gray highlights both companies' commitment to advancing sustainable building practices. With a shared focus on energy efficiency, carbon reduction, and occupant wellbeing, this partnership brings accessible, UK-manufactured solutions to environmentally conscious builders, contractors, and property owners.

#### Convenience and Accessibility

Thermahood products are now easily accessible to customers across the UK through Huws Gray's extensive branch network. Whether you're a contractor working on large-scale projects or a homeowner upgrading to energy-efficient solutions, Thermahood Airtight Downlight Covers are available at your nearest Huws Gray branch.

Visit Huws Gray to discover the range of Thermahood products!

Don't miss the opportunity to incorporate Thermahood Airtight Downlight Covers into your next project.
