“

Elevating Business Processes As a SAP Signavio Certified Partner.”

Nikhil Agarwal

BPX is a leading business process consulting partner and has been instrumental in the implementation of SAP Signavio solutions.

SAP The Signavio toolset comprises a set of highly effective solutions that help to enhance the effectiveness of BPM. Such aspects as process mapping, process intelligence, and

collaboration tools help businesses to obtain timely information regarding their processes to make proper decisions and improve performance. Signavio enables organizations to understand where there are inefficiencies and then design better processes, thus, making a framework for a culture of process improvement.

Nikhil Agarwal, Founder of BPX, comments, “BPM is a must-have to master discipline in today's business and to attain competitive advantage. SAP Signavio offers the elements to map, design,

and steady processes, and BPX guarantees successful enactment.”

It can also be seen that Signavio aids in developing the right culture of process improvement in organizations with its superior features. It helps the teams to work more closely, bring processes in tune with business objectives, and ensure that work is done in a standardized way. Some of the benefits that organizations that implement Signavio for BPM include; better operational efficiency, low costs, and satisfaction among customers.
