Presentation: How to Expand Winery Capacity and Increase Production Efficiency, and Revenue.

Flextank Chief Executive Officer Jon Smalley will present ways for wineries to reduce operational costs, expand

production, increase efficiency, and improve revenue and margins at the Unified Symposium, held January 28-30, in Sacramento at the SAFE Credit Union Convention Center, at Booth #1120.

Flextank will provide expert guidance, as well as winery production and project consultation. The information will help winery operators increase their: productivity, sustainability, efficiency, revenue, and margins. The information is designed to help wineries become more efficient, productive and revenue generating as many wineries struggle with increasing costs and shifts in customer demand.

Event attendees and wine operators can access a real-time Productivity and Revenue Calculator and send the results directly to their email, via an interactive kiosk at Unified Booth #1120.

- Estimate in real-time a Winery's projected production, OpEx costs and potential revenue.
- Assess oak barrel requirements by gallons or liters.
- Map out how to reduce overhead and OpEx costs, and expand capacity and production efficiency.
- Develop custom, durable long-term production and storage solutions.

- Obtain free downloadable checklists and content to help Winery owners, operations managers and CFOs map out their development.
