Growing Advancements in Autonomous Technology”
Allied Market Research

Commercial), Insurance Coverage (Third Party Liability Coverage and Comprehensive Coverage), and Distribution Channel (Insurance Agents/Brokers, Direct Sales, Banks, and Others): Global Opportunity Analysis and Industry Forecast, 2023-2032.

□□□□□□□□ □□□□□□□□ □□□□□□ □□□□□□ & □□□ : <https://www.alliedmarketresearch.com/request-sample/A320163>

According to the report, the global self-driving car insurance industry generated \$22 billion in 2022, and is anticipated to generate \$88.1 billion by 2032, witnessing a CAGR of 15.3% from 2023 to 2032.

□□□□□ □□□□□□□□□□□□ □□ □□□□□□□

Advancement in autonomous technology is the main significant factor driving the growth of self-driving car insurance market. Furthermore, regulatory complexities hamper the self-driving car insurance market growth. Moreover, the increase in purchase of vehicles provides significant opportunity for self-driving car insurance market growth.

By application, the personal segment held the highest market share in 2022, accounting for three-fourths of the self-driving car insurance market revenue and is estimated to maintain its leadership status throughout the forecast period. This is due to increasing business activities and increasing vehicle usage for the same. However, from 2023 to 2032, the personal segment is expected to grow at the fastest rate of 17.5%. This is due to increasing purchasing power of the people

On the basis of insurance coverage, the third-party liability coverage segment attained more than four-fifths of the market-share and is expected to continue to dominate the market during the forecast period because of growing number of vehicles and accidents. However, from 2023 to 2032, the comprehensive plan segment is expected to grow at the fastest rate of 16.3%. This is due to the additional benefits offered by the segment as compared to the standard plan.

On the basis of insurance coverage, the third-party liability coverage segment attained more than four-fifths of the market-share and is expected to continue to dominate the market during the forecast period because of growing number of vehicles and accidents. However, from 2023 to 2032, the comprehensive plan segment is expected to grow at the fastest rate of 16.3%. This is due to the additional benefits offered by the segment as compared to the standard plan.

By distribution channel, the independent agents/brokers segment held the highest market share in 2022, accounting for nearly two-fifths of the self-driving car insurance market revenue and is estimated to maintain its leadership status throughout the forecast period. This is due to the advancements in automotive technology, which demands the need for experts to provide information to the consumers regarding the technology. However, from 2023 to 2032, the others segment is expected to grow at the fastest rate of 17.9%. This is due to increasing technology companies, automobile manufacturers and corporate partnerships.

By distribution channel, the independent agents/brokers segment held the highest market share in 2022, accounting for nearly two-fifths of the self-driving car insurance market revenue and is estimated to maintain its leadership status throughout the forecast period. This is due to the advancements in automotive technology, which demands the need for experts to provide information to the consumers regarding the technology. However, from 2023 to 2032, the others segment is expected to grow at the fastest rate of 17.9%. This is due to increasing technology companies, automobile manufacturers and corporate partnerships.

By region, North America region held the highest market share in 2022, accounting for nearly two-fifths of the self-driving car insurance market revenue and is estimated to maintain its leadership status throughout the forecast period. This is due to the presence of large insurance companies in the region. However, from 2023 to 2032, the Asia-Pacific segment is expected to grow at the fastest rate of 19.0%. This is due to the increasing population and growing interest of people in the latest driving technology and features in the region.
