What are the key growth drivers for the Ocrevus market?

Rising instances of multiple sclerosis are expected to significantly drive the growth of the Ocrevus market. Multiple sclerosis MS, a chronic autoimmune disease that attacks the protective myelin sheath of nerve fibers in the central nervous system is becoming increasingly common due to a combination of genetic, environmental, and lifestyle factors. This includes better diagnosis, enhanced awareness, and changes in diet and urban living. Ocrevus is widely used to manage MS symptoms, reduce disease activity, slow progression. It targets and depletes CD20-positive B-cells, which contribute to the immune-mediated damage in MS. For instance, in May 2024, the MS Society UK reported that over 150,000 people were living with MS in the UK. Hence, the rise in multiple sclerosis cases is set to drive the ocrevus market.

Who are the major players in the Ocrevus market?

Key industry players in the Ocrevus market are F. Hoffmann-La Roche Ltd, a major pharmaceutical company known for its innovation and leadership in the global healthcare landscape.
