

# Retail Redefined: IFortis Worldwide Mission 20,000 Propreneurs Leads the Charge in Sustainable Business Practices

*Redefining Retail: The Role of IFortis Worldwide Mission 20,000 Propreneurs in Shaping the Sustainable Retail Revolution*

NEW DELHI, INDIA, February 18, 2025

[/EINPresswire.com/](https://EINPresswire.com/) -- The retail industry, one of the world's largest economic sectors, has long been associated with wasteful practices, overproduction, and unsustainable supply chains. In the face of rising consumer demand for ethical products and sustainable practices, the sector is at a crossroads. To future-proof the industry, retailers must pivot towards sustainable models that not only meet the demands of conscious consumers but also contribute to solving global environmental issues.

World's First Propreneurship Transformation Program

[Mission 20,000 Propreneurs](#) by [IFortis Worldwide](#) is playing a pivotal role in transforming the retail industry by empowering green entrepreneurs to build sustainable businesses that are both ethical and profitable. The program's success is amplified by the World Propreneurship Alliance Funds (WPAF), which acts as a key enabler for green SMEs, ensuring that sustainability-led businesses have access to the capital, resources, and mentorship necessary for growth and scalability.

The demand for sustainable retail has exploded in recent years. According to a 2023 report from McKinsey & Company, the sustainable fashion market alone is projected to surpass \$80 billion by 2030, driven by consumers increasingly prioritizing eco-friendly and ethically produced goods. However, many green entrepreneurs in the retail space face significant barriers to accessing funding. The financing gap for sustainability-led SMEs in emerging markets, especially in Asia, Africa, and Latin America, remains a formidable challenge.

This is where WPAF steps in, providing a reliable funding stream for entrepreneurs developing sustainable retail solutions, from eco-friendly clothing lines and circular product design to ethical

sourcing and carbon-neutral shipping. By prioritizing inclusive growth, WPAF also ensures that women and youth entrepreneurs are given the tools to become leaders in the sustainable retail revolution, thus creating economic opportunities and driving positive change across the globe.

Reflecting on the broader impact of the program, Mr. [Rohit Naidu S](#), CEO of IFortis Worldwide, shares: "The retail industry is undergoing a seismic shift towards sustainability. Through Mission 20,000 Propreneurs, we are not just enabling entrepreneurs to create successful retail businesses, but also fostering a global movement for ethical consumption. The future of retail is one that aligns with sustainable values, and we are proud to support the leaders who will shape this future."

By offering innovative financial solutions and strategic guidance, Mission 20,000 Propreneurs is helping to create the next generation of retail businesses that align with global sustainability goals, reducing waste, carbon emissions, and ensuring that businesses thrive in a world that increasingly demands responsibility.
