

Triple-Zone Wine Refrigerator Offers Versatile Storage for Wine and Beverages

HOUSTON, TX, UNITED STATES, February 27, 2025 /EINPresswire.com/ -- The WRD2 [108 Combo Wine Refrigerator](#) combines modern design with [multi-zone temperature control](#), catering to collectors and entertainers seeking versatile, high-capacity storage.

With a 17-cubic-foot capacity, this stainless steel refrigerator accommodates up to 84 wine bottles, organized across [temperature-controlled shelves](#). The top three shelves maintain 41°F to 54°F, ideal for white wines, while the lower three shelves hold 54°F to 65°F, suited for red wines.

Beyond wine storage, dual refrigerator drawers—offering 2.5 cu. ft. and 2.4 cu. ft. of space—provide dedicated compartments for additional beverages and preserved foods. The triple temperature zone ensures that all contents are kept at their optimal conditions.

"The WRD2 108 elevates wine and beverage storage by combining precision cooling with flexible organization," says Nick Matthews, Marketing Executive at Equator Advanced Appliances. "With its sleek design, multiple temperature zones, and ample capacity, it meets the needs of both casual collectors and serious connoisseurs."

Aesthetic and functional enhancements include seven-color LED lighting, anti-UV glass shields, and interior LED-lit drawers for enhanced visibility. Auto defrost technology, a touch control panel, and reversible doors further contribute to convenience. Measuring 72 x 26 x 23 inches (HxWxD), the WRD2 108 supports built-in or freestanding installation for flexible placement.
