Focus on Service Quality

The hospitality industry is among the few where the quality of service can be precisely measured. Guest reviews and ratings on platforms such as Booking.com and Google serve as objective criteria for evaluation.

The TOP 100 Best Hotels in Bulgaria ranking for 2024 covers the period from December 2023 to December 2024. Hotels were evaluated using algorithms based on user reviews and ratings, analyzing over 1,000 hotels that meet the criteria of having 20 or more rooms (excluding apartments and guesthouses) and being classified as three, four, or five-star properties.

To ensure transparency, the calculation of the HotScore index and the inclusion of hotels in the TOP 100 Best Hotels ranking for 2024 are entirely free.
