

Financial Analytics Market Size to Reach \$19.8 Billion by 2030, At a CAGR 10.3%

The report offers a detailed analysis of changing market trends, top segments, key investment pockets, value chain, regional landscape, and competitive scenario

WILMINGTON, DE, UNITED STATES,
March 6, 2025 /EINPresswire.com/ --

Rise in adoption of advanced computing devices, increase in storage capabilities, and innovation in analytics tools drive the growth of the [global financial analytics market](#). However, increase in the number of cyber threats and data breaches restrain the market growth. On the other hand, untapped potential in emerging countries and rise in awareness among end users about the benefits of financial analytics present new opportunities in the coming years.

Allied Market

The global financial analytics market generated \$7.6 billion in 2020, and is estimated to reach \$19.8 billion by 2030, witnessing a CAGR of 10.3% from 2021 to 2030.

The report offers detailed segmentation of the global financial analytics market based on component, deployment mode, organization size, industry vertical, and region.
