# ETHDam III: Amsterdam's Leading Privacy, Security & AI Event Returns in 2025

The premier hackathon and conference for privacy, security, and AI builders is back May 9-11, 2025 in Amsterdam

AMSTERDAM, NETHERLANDS, March 17, 2025 /EINPresswire.com/ -- ETHDam III in Amsterdam is bringing together the brightest minds in Web3 to push the boundaries of decentralization.

ETHDam is Amsterdam's flagship conference and hackathon focused on privacy, security, and AI. Designed for developers, researchers, cypherpunks, and builders, ETHDam fosters innovation in censorship-resistant technologies, decentralized finance (DeFi), zero-knowledge proofs, and more.

Unlike traditional Web3 events, ETHDam stands out for its grassroots, no-hype approach, creating an unfiltered, builder-first environment where meaningful discussions and innovative projects take center stage.

What to Expect at ETHDam III

The third edition of ETHDam will feature:

- Privacy, Security, and AI tracks with in-depth talks, panels, and workshops on the latest in privacy, security, and AI.
- A 48-hour hackathon where teams compete for bounties and mentorship from top Web3 organizations.
- Otter Track - a dedicated stage for ongoing projects to showcase their work.
- Panels, keynotes, and workshops led by leading experts and industry pioneers.
- 700+ attendees, including developers, founders, researchers, and investors.
- Official afterparty & networking events to connect with the Web3 community in a grassroots, builder-focused setting.

[ETHDam Hackathon](#): Build, Ship, and Win

The ETHDam hackathon is an opportunity for builders to work on real-world problems, gain access to top-tier mentorship, and compete for bounties from leading blockchain protocols.

With a strong emphasis on privacy, security, and AI, hackathon participants will tackle cutting-edge challenges in cryptography, DeFi security, and censorship-resistant tech.

Why Amsterdam

Amsterdam has become a hub for privacy-first builders and decentralized technology advocates. With a strong hacker culture, deep financial history, and active Web3 community, it's the perfect place for a conference dedicated to pushing the limits of decentralized innovation.

ETHDam III is open to builders, founders, developers, and anyone passionate about decentralization.
