

Nemo Money Named 'Best Stock Trading App' in 2025 FinTech Breakthrough Awards Program

Prestigious Annual Awards Program Recognizes Outstanding Financial Technology Products & Companies Around the World

ABU DHABI, UNITED ARAB EMIRATES, March 25, 2025 /EINPresswire.com/ -- [Nemo Money](#) by [Exinity](#) announced that it has been selected as winner of the “Best Stock Trading App” award in the 9th annual [FinTech Breakthrough](#) Awards program conducted by FinTech Breakthrough, an independent market intelligence organization that recognizes the top companies, technologies and products in the global FinTech market today.

Nemo Money leverages AI to turn complex stock data into clear, easy-to-understand insights. Nemo curates investment opportunities in accessible, engaging ways, enabling users to make confident decisions independently. By transforming complex company data into actionable insights, novice investors have a clearer understanding of where to invest their money. Nemo offers 8,000+ global stocks, ETF's, CFD's and Crypto— each fluctuating daily across hundreds of data points. Nemo provides real-time, digestible analyses, ensuring users get comprehensive, but digestible, analysis on even the smallest of stocks.

The Nemo Money app allows potential investors to browse trends and ultra-relevant data to invest in stocks that present new opportunities while also receiving relevant and easy-to-digest financial numbers. Users browse through categories and “nemes” to explore trends, industries and hot topics, then decide whether to make an investment from a smartphone. Nemes are collections of stocks centered around a specific industry, topic, or trend. Each neme consists of stocks with live data and analysis, making it easy to spot an opportunity that matches an investor's goals. Nemo's stocks, ETF's, CFD's and Crypto are also commission-free.

Nemo also tracks which markets each individual has viewed and traded in order to understand their interests. When significant price movements happen, when there's a dividend deadline, or when analysts raise their prediction for that market, Nemo uses AI to analyze the reasons behind the change and sends personalized notification alerts to the user.

“Nemo is filling a gap in the market, helping novice users make better investing decisions. Despite living in an era of endless information, novice investors are challenged to understand what to invest in and when to invest. Information is usually difficult to find and understand

causing low confidence in investing decisions,” said Steve Johansson, Managing Director, FinTech Breakthrough. “Utilizing AI, Nemo provides real-time, digestible analyses that would typically require a large team of analysts. With the Nemo app, investment ideas are at your fingertips making it incredibly easy to spot them and invest - all through your phone. Congratulations on being our pick for 2025’s ‘Best Stock Trading App!’”

The FinTech Breakthrough Awards is the premier awards program founded to recognize the FinTech innovators, leaders and visionaries from around the world in a range of categories, including Digital Banking, Personal Finance, Cryptocurrencies, Lending, Payments, Investments, RegTech, InsurTech and many more.

“Nemo stands for Never Miss Out. We believe investing shouldn’t be complicated or scary. It is one way to take charge of your financial future, so you should feel empowered, not on edge. By harnessing AI, our mission is to simplify the complex, making investing approachable, actionable, and engaging,” said Nick Scott, Executive Vice President of Exinity and CEO of Nemo Money. “We are so grateful to FinTech Breakthrough for this award. As we keep growing, our investors will keep growing with us ensuring they stay informed about the markets that matter most to them.”
