

Global Prescription Orthopedic Drugs Market Forecast 2025-2034: Analyzing Growth Drivers, Market Share, Segments

The Business Research Company's Prescription Orthopedic Drugs Global Market Report 2025 – Market Size, Trends, And Forecast 2025-2034

LONDON, GREATER LONDON, UNITED KINGDOM, March 27, 2025

[/Einpresswire.com/](https://www.einpresswire.com/) -- The prescription orthopedic drugs market has exhibited

robust growth over recent years, expanding from \$48.41 billion in 2024 to an estimated \$51.55 billion in 2025. This represents a compound annual growth rate CAGR of 6.5%. Multiple factors have contributed to this substantial growth, including an increased prevalence of musculoskeletal disorders, a larger geriatric population, enhanced awareness around

osteoporosis treatments, and broader healthcare access in developing regions. Furthermore, the increased incidence of sports-related injuries worldwide has contributed significantly to market expansion.

The Business Research Company

Is the Prescription Orthopedic Drugs Market Set to Witness Substantial Growth?

Forecasts suggest that the prescription orthopedic drugs market is set for robust growth in the coming years, with

projections indicating an estimated value of \$65.32 billion by 2029, marking a CAGR of 6.1%. Demand for biologics, an expanding geriatric population, wider healthcare access in emerging markets, increased prevalence of chronic musculoskeletal disorders, and greater investment in orthopedic drug research and development are all contributing to this anticipated growth.

What factors are projected to fuel the market's growth moving forward?

The rising incidence of musculoskeletal disorders is a chief driver expected to propel the

prescription orthopedic drugs market. Musculoskeletal disorders MSDs, encompassing injuries and conditions that affect the body's musculoskeletal system--including muscles, tendons, ligaments, nerves, and joints--result in pain, reduced mobility and are primarily due to factors such as aging, repetitive movements and awkward postures in occupational activities, lifestyle choices like physical inactivity and poor nutrition, and genetic predispositions. Prescription orthopedic drugs play a crucial role in managing these disorders, helping to alleviate pain, reduce inflammation, and enhance the healing process. This can significantly improve mobility and overall quality of life.

Who Are The Key Players In The Prescription Orthopedic Drugs Market?

Turning to leading industry players in the market, firms like Pfizer Inc., Johnson & Johnson, Roche Holding AG, Merck KGaA, AbbVie Inc., Bayer AG, Sanofi S.A., Bristol-Myers Squibb Company, AstraZeneca plc, GSK Plc, and more are dominant forces. These corporations continue to be key drivers of development and growth in the prescription orthopedic drugs sector.
