“We are incredibly honored to receive our first Green Globe certification. At Avista Hideaway Phuket Patong – MGallery, sustainability is at the heart of everything we do, from reducing waste and conserving resources to supporting our local community,” said Mathieu Scholtz, Rooms Division Manager. “This recognition reinforces our commitment to creating an environmentally responsible and socially conscious hospitality experience for our guests.”

The resort has taken a significant step in reducing plastic

waste by eliminating the need for plastic bottles and producing its own drinking and soda water through an advanced on-site filtration system, Rynn Water. This eco-friendly solution preserves essential natural minerals while ensuring clean and refreshing water for guests, aligning with Avista’s mission of reducing its environmental footprint. The filtration system, designed by Thai

water-treatment experts, utilizes nanofiltration technology to remove unwanted odors, sediments, bacteria, and heavy metals while retaining beneficial minerals.

Furthering its commitment to environmental conservation, Avista Hideaway Phuket Patong – MGallery has implemented energy-efficient practices, including optimized water and energy consumption and a dedicated waste management system aimed at minimizing landfill contributions. The resort actively supports reforestation efforts and integrates sustainable landscaping practices that enhance the natural biodiversity of the area. Additionally, the property sources ingredients from local suppliers, promoting farm-to-table dining while reducing the carbon footprint associated with food transportation.

Beyond its environmental efforts, the resort is deeply committed to social responsibility and fostering positive change within the local community. To support educational opportunities for children, proceeds from its annual Heartbreak Hill Mini Marathon were dedicated to providing student uniforms for Watsuwankiriwong School, ensuring that students have the necessary resources for their studies.

The resort has also played a crucial role in wildlife conservation by contributing to the protection and well-being of elephants in Phuket. By selling handmade elephant dolls crafted from authentic Southern Thai Batik fabric, the resort raised 40,000 THB, all of which was donated to the Phuket Elephant Nature Reserve. Additionally, Avista Hideaway Phuket Patong – MGallery actively collaborates with local artisans and businesses, fostering sustainable tourism and driving economic growth within the region.

As the resort continues to innovate and lead in sustainable hospitality, it remains committed to enhancing guest experiences while protecting the natural beauty of Phuket. Through ongoing improvements in energy efficiency, waste reduction, and eco-conscious initiatives, Avista Hideaway Phuket Patong – MGallery has proven to lead the way in responsible tourism in the region, ensuring a sustainable future for both visitors and the local community.
