NY, UNITED STATES, April 3, 2025 /EINPresswire.com/ -- The global [vegan yogurt market](#) was valued at USD 3.10 billion in 2023 and is expected to grow from USD 3.70 billion in 2024 to USD 16.76 billion by 2032, reflecting a CAGR of 20.75% during the forecast period from 2024 to 2032. In 2023, Asia Pacific led the market, holding a 46.13% share. Additionally, the U.S. vegan yogurt market is anticipated to expand significantly, reaching an estimated USD 3.31 billion by 2032, driven by the rising adoption of veganism and an increasing variety of new product flavors.

The vegan yogurt market is experiencing rapid growth due to the expanding vegan culture and the rising demand for dairy alternatives. With increasing environmental concerns and the recognized health benefits of plant-based proteins, the market is gaining significant traction worldwide. Furthermore, the rising prevalence of lactose intolerance, particularly in Europe and Asia, coupled with increasing spending on plant-based products like hemp milk and flaxseed yogurts, is fueling the expansion of the vegan yogurt segment.
