

# Support for Secure32 and Create-A-Check Payment Systems Being Discontinued

*AP Technology Provides Secure Payment Issuance Solutions to Banks and Businesses*

CARLSBAD, CA, UNITED STATES, April 9, 2025 /EINPresswire.com/ -- With the announced discontinuance of support for payment issuance software on products such as Secure32 and Create-A-Check systems, banks and businesses are facing a critical need to modernize and replace their payment issuance processes. [AP Technology](#), a pioneer in secure, business payment solutions, is stepping-in to provide for these needs with advanced alternatives designed for minimal disruption and maximum efficiency.

“

Financial institutions and businesses seeking to replace Secure32, Create-A-Check, or other payment issuance systems are encouraged to act now to avoid payment processing disruptions.”

*AP Technology*

The advertisement graphic features the AP Technology logo in the top left corner. The main text reads: "Your Payment System Deserves an Upgrade." Below this, it says "Replace Create-A-Check or Secure32 with a modern solution". A white button with the text "Make the Switch Today" is positioned at the bottom left. On the bottom right, the contact information "Sales@APTechnology.com" and "800.652.2877 ext.1" is provided. The background of the graphic shows a woman in a dark blazer holding a tablet and a man in a suit sitting at a desk, both looking at the tablet.

Secure32 and Create-A-Check replacement from AP Technology

Businesses and financial institutions have used Secure32 and Create-A-Check systems for years, so the systems' discontinuation means that new issuance solutions need to be secured without delay. AP Technology is well-suited to provide improved payment solutions, because the Company has pioneered payment issuance software to banks and businesses for nearly 40 years. AP Technology solutions provide a seamless upgrade path with more advanced features, enabling clients to improve security, elevate compliance, and issue payments with more speed and automated efficiency.

Replacing payment issuance systems will give banks and businesses an opportunity to modernize and improve payment disbursement. AP Technology's [APSecure](#) and SecureCheck products are already in use with banks, credit unions, insurance companies, law firms, and a wide variety of enterprises, enabling them to issue a variety of payment options faster, more securely, and with greater convenience.

APSecure is an enterprise-grade platform from AP Technology with advanced workflow capabilities designed for remote official check issuance, ACH, wire transfers, and debit card processing. It is widely used by banks to streamline and secure payment processes for business customers, even in areas where the banks have no branch locations. For example, law firms leveraging APSecure can remotely print official checks, accelerating real estate transactions while minimizing trips to the bank.

SecureCheck is another payment solution that provides an equally powerful upgrade for businesses seeking to automate payment workflows. With features such as remote check printing, integrated Positive Pay fraud protection, multi-layered security, and full compatibility with Windows 11, SecureCheck is a next-generation replacement for legacy payment systems.

Remote check printing, advanced security, automated payment workflows, and customizable approvals are just a few of the advantages that come with upgrading to APSecure and SecureCheck.

For businesses transitioning from Create-A-Check, AP Technology also offers ezSigner Direct, a powerful tool that allows secure addition of digital signatures and logos to checks and documents in a single pass during the printing process. Combined with AP Technology's robust payment systems, ezSigner Direct streamlines manual processes while ensuring accuracy and
