[The Forbes America's Top Wealth Advisors 2025](#) ranking, developed by SHOOK Research, is based on an algorithm of qualitative criteria, mostly gained through telephone and in-person due diligence interviews, and quantitative data.

This ranking is based upon the period from 6/30/2023 to 6/30/2024 and was released on

4/8/2025. Those advisors that are considered have a minimum of seven years of experience, and the algorithm weighs factors like revenue trends, assets under management, compliance records, industry experience and those that encompass best practices in their practices and approach to working with clients. Portfolio performance is not a criteria due to varying client objectives and lack of audited data. Out of approximately 48,944 nominations, 250 advisors received the award. This ranking is not indicative of an advisor's future performance, is not an endorsement, and may not be representative of individual clients' experience.
