

Super Brush Launches New Sterile Sample Collection Swabs

Super Brush LLC, a leader in foam swab technology, proudly announces the release of its new line of Sterile Sample Collection Swabs

SPRINGFIELD, MA, UNITED STATES, April 21, 2025 /EINPresswire.com/ -- Super Brush LLC, a leader in foam swab technology, proudly announces the release of its new line of Sterile Sample Collection Swabs, designed for safe, effective, and contamination-free specimen collection in clinical and research settings.

Each swab is individually packaged, and electron beam sterilized, ensuring the highest standards of hygiene and safety. Constructed with a durable polypropylene handle and a soft polyurethane foam tip, the swabs offer both reliability and comfort during sample collection. The swabs are housed in a paper-on-film thermoform package that preserves sterility and ensures ease of use in critical environments.

With our new sterile swabs, we continue to deliver on our commitment to innovation, quality, and precision”
Diane Henry, Director of Sales

Super Brush currently offers five sterile sample collection swab formats to suit a wide variety of applications:

- 53-1195-TFS – 3-inch Swab
- 53-4582-TFS – 6-inch Swab
- 53-0100-TFS – 6-inch Swab with 50mm Breakpoint
- 53-0103-TFS – 6-inch Swab with 55mm Breakpoint
- 53-0101-TFS – 6-inch Swab with 80mm Breakpoint

These swabs are ideal for multiple diagnostic and specimen collection procedures, including:

- Oral Specimen Collection

- Oropharyngeal Specimen Collection
- Anterior Nasal Collection

“With our new sterile swabs, we continue to deliver on our commitment to innovation, quality, and precision,” said Diane Henry, Director of Sales at Super Brush LLC. “These swabs are specifically designed to meet the rigorous demands of modern diagnostics while ensuring patient comfort and specimen integrity.”

Large quantities are available today by contacting Super Brush directly, and low-volume ordering starting at 1,500 pieces is available through our e-commerce store at www.swab-its.com.

Super Brush’s sterile collection swabs are manufactured in the USA in an ISO-certified facility and are compatible with a wide range of diagnostic platforms and laboratory protocols.
